Ready Now! Gossard Corsets For Spring

Put the Ex-Service Man to Work

A thousand jobs of a half-day each would supply five hundred days of work. Surely there are thousands of homes in Ogden where a man can be used around the yard for a day or two. It might be work that you can do yourself—but why not let one of these boys do it? Suppose that a thousand of us decide right now that we'll give a man a day's work this week—there would not be an idle man in Ogden. At the end of the week the town would shine like a new pin. Just recall the heart throbs we felt as we saw these men go into service. Nothing was too good for them then—so we thought. Remember how we thrilled with the news of Chateau Thierry? These boys did it—These and those who are now beyond our help. What say, brother? Can you supply a little job for an ex-service man?
